GENERAL EXPERIENCE

Experience • Favourite	Years
Environment	
OS: DOS, Windows 3.x – Windows 11	36
Data: Microsoft SQL Server	26
IDE: Microsoft Visual Studio	23
Languages	
C#, VB (.NET Framework / CORE / Standard)	22
HTML / XML / DHTML / CSS	27
T-SQL (MS-SQL)	26
JavaScript (AJAX, jQuery, JSON, TypeScript)	25
DOS Batch, PowerShell	29
Applications	
Mobile: Android, iOS, UWP on Xamarin	7
Desktop: Windows Forms, WPF	23
Web: ASP.NET, WCF, REST Web services	29

OTHER SKILLS

Experience with network management, infrastructure, hierarchy, permissions, encryption and major business services like VPN, HTTP, FTP, POP3, SMTP, IMAP, SSL/TLS, on premises and Azure Cloud (CI/CD).

JOB PREFERENCES:

Location: Shepherd's Bush, London W12 0

Preferred Location: **West/City of London**

Role Type: Permanent

Availability: 3 months notice

UK STATUS:

Settled, also known as Indefinite Leave to Remain or Permanent Residence.

Citizenship: Lithuanian, EU.

Note: Best time for appointments: 11:00 - 12:00 and 13:30 - 17:00 (Monday - Friday) with 2-day notice.

PERSONAL

Languages: Lithuanian (Native), Russian (Good), English (Good).

Hobbies: Computers, programming, world-views.

Personality: Self-taught type, since knowledge is fundamental to living a full and interesting life. I agree with Confucius (551-479 BCE) who said "Choose a job you love and you will never work a day in your life". Also, sense of humour, mixed with a slight portion of cynicism, is not alien to me. After all, good sense of humour separates us from the most of other animals :).

CURRENT EXPERIENCE

2022-04-11 – ... Barnett Waddingham LLP London, UK

IDE: Visual Studio 2008 - 2019.		
	Projects: Technical design, architecture and solution implementation consisting of C#/VB.NET projects and SQL databases (Trips, Billing, GEO and Logs). Windows Applications: Creation of Taxi Terminal with our own Meter, Modem, Payment Terminal, Hardware, GPS and Mapping. Web and Mobile Applications: Update and creation of trip data exchange and notification web services with extra encryption (RSA, AES) for communication with mobile applications.	
Windows Services: Booking and dispatch, notification, payment, proxy, custom database replication, billing and report services which are using different data formats (XML, TLV, Crystal Reports, ...) and various protocols up to basic TCP/UDP.		
Update: 2018-06-01 - CityFleet Networks Limited Acquired Dial-a-Cab Limited		
Update: 2021-06-11 - Addison Lee Limited acquired ComCab London Limited		
2008-04-07 - 2010-01-22 (1y 8m)	HarperCollins Publishers Ltd	London, UK
Role: Senior Developer. Project: Technical design and creation of social network website for customers who like books with integration to Facebook. This was a solution from 32 various projects, which ran on 3 load balanced web servers and 7 databases on 2 servers.		
Skills: ASP.NET, C#, LINQ, SQL 2005/2008, SSIS, SSAS, SSDT-BI, OLAP, DHTML, AJAX, JavaScript, ADO.NET, IIS, Search Engine Optimization (SEO), Google Analytics/Webmaster Tools, XML Web Services, OS: Windows Server 2008, IDE: Visual Studio 2008.		
2005-07-18 - 2008-04-07 (2y 8m)	WillowBreeze Ltd, part of PinnacleSports.com	London, UK
Role: Software Developer. Project: Designed and upgraded customer support and internal communications application from classic ASP version to ASP.NET. Gathered requirements, produced documentation and went through full development life-cycle of this project. Application benefits from ISO Globalization standards and JavaScript part follows coding standards recommended for C#.		
Skills: ASP.NET, C#, DHTML, OO JavaScript, SQL 2000/2005, OLTP, SSDT, ADO.NET, IIS, XML Web Services, Windows Server, Visual Studio 2003/2005/2008, Classic ASP, Windows Domain Network Administrator.		
2002-05-17 - 2005-08-31 (3y 3m)	Okeda Ltd	London, UK
Role: Head of Development in a small company. Projects: • Designed and developed "Jool Remote Administrator" - remote administration software to control BSD/Linux/Macintosh workstations and servers, which was based on WebMin. • Designed and developed Microsoft DirectX 3D car multimedia UI with touch screen interface. • Created multithreaded C# tool "Domain Registration Checker" in order to check millions of word-like and available domains. This is how company name „Okeda“ was chosen.		
Skills: VB.NET, C#, JavaScript, VBScript, SQL, DHTML, XML Web Services, IIS, ASP.NET, Visual Studio .NET/2003, DirectX, Windows Server, Linux, BSD Shell Scripting, Windows Domain Network Administrator.		
1999-12-20 - 2002-05-10 (2y 5m)	GSK UAB ("Gelvora Security Consultants")	Vilnius, Lithuania
Role: Head of Development in a small company. Project: Design and development of "GSK Database Manager" - web application to research available information about a person or a company for investigations.		
Skills: ASP, VBScript, SQL, Visual Studio.NET, Windows Server, Oracle. Domain Administrator.		
1997-03-01 - 2001-12-15 (4y 9m)	VirNETas UAB	Vilnius, Lithuania
Role: Co-owner of VirNETas UAB. First public computer club with Virtual Reality Headsets in Lithuania. Also, we organized some LAN parties with Tesla coils :): https://jocys.com/lanparty		
1994-11-22 - 1997-11-14 (3y 1m)	SoDra VĮ, State Social Insurance Fund	Vilnius, Lithuania
Role: Senior specialist at "Central Data Base Design and Management Department of SoDra (HMRC equivalent)". Project: Developed data transmission network among 56 towns of Lithuania by using Linux (Slackware). https://www.sodra.lt		
1994-08-22 - 1994-11-21 (0y 2m)	Baltic Amadeus UAB	Vilnius, Lithuania
Role: Entrepreneur. Sold bespoke IT equipment.		

EDUCATION

1990-09-01 – 1993-06-01 (2y 9m)	Vilnius Senvage Gymnasium (44th Secondary)	Vilnius, Lithuania
1987-09-01 – 1989-06-01 (1y 9m)	House of Computers UAB	Vilnius, Lithuania
This centre was established by the "Institute of Mathematics and Information of the Lithuanian Academy of Science". My programming experience started from "Electronics BK-0010" 16-bit computer with 16Kb memory and membrane keyboard connected to TV - first personal computer available to public in Soviet Union :).		
1981-09-01 – 1990-06-01 (0y 9m)	Vilnius King Mindaugas School (35th Secondary)	Vilnius, Lithuania

SOME PERSONAL PROJECTS

<https://www.jocys.com/Software>

Jocys.com VS Reference Manager (Microsoft Visual Studio extension)

<https://github.com/JocysCom/VsReferenceManager>

<https://marketplace.visualstudio.com/publishers/JocysCom>

Update *.dll references with original Project references. Works with C# and VB.NET projects.

Jocys.com x360ce Controller Emulator

<https://www.x360ce.com>

<https://github.com/x360ce/x360ce>

Allows your controller (Gamepad, Joystick, Wheel ...) to function like "Xbox 360 Controller" ... for example, to play games, like "Grand Theft Auto", "Mafia" or "Saints Row", with Logitech Steering Wheel. Application allows edit and test "Xbox 360 Controller Emulator Library" settings. Currently have over million user devices in database.

Jocys.com SQL Propagate

<https://github.com/JocysCom/SqlPropagate>

Execute SQL scripts with parameters on multiple database server connections. Tool is customisable and can be tailored to specific tasks. You can change title header, body and initial log panel text to provide help and instructions.

Jocys.com WoW Text to Speech Monitor and WoW Addon

<https://github.com/JocysCom/TextToSpeech>

Monitors World of Warcraft and converts text (quests, chat messages ...) to speech. Program will choose correct gender and applies effects depending on NPC class.

Jocys.com Password Generator

<https://www.jocys.com/projects/passgen>

Advanced password generator which can generate easy to remember, fast to enter (PC keyboard, Mobile phone) passwords. Convert them to NATO calls. Apply regular expressions and scripts (JScript, C#, VB.NET).

Jocys.com Advanced Keyboards:

<https://www.jocys.com/projects/advkbd>

Advanced keyboards which are not included in Windows OS.

Object Oriented JavaScript class library in C#/.NET style

<https://www.jocys.com/Common/JsClasses/Documents>

JavaScript library which replicates some classes like System.BitConverter, System.Security.Cryptography, System.Security.Cryptography.SHA1, HMACSHA1, RijndaelManaged (AES-256)

Globalization Resources for Multilanguage Development

<https://www.codeproject.com/KB/locale/JocysComGlobalization.aspx>

Must have data for proper multi language development: Languages - information about all languages, Cultures - information about all cultures (Language + Country), Encodings - information about all encodings, Ranges - helps getting customer's culture by IP, Currencies - business information about each country, Currencies by Country - currencies used in country.
